Office Action Summary	Application No. 10/729,226	Applicant(s) MCCANN, JOHN	
	Examiner Dolores R. Collins	Art Unit 3711	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

Examiner acknowledges response by applicant's representative received 6/20/05. Examiner further acknowledges the cancellation of claims 1-6 and the addition of claims 7-10.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 7 & 9-10 are rejected under 35 U.S.C. 102(b) as being anticipated by the attached Affidavit.

Regarding claims 7 & 9-10

The limitations of these claims are clearly taught and known as evidenced by the aforementioned declaration.

2. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over the attached Affidavit as applied to claim 7 above, and further in view of Shinderovsky (855).

Regarding claim 8

The aforementioned declaration fails to explicitly teach the erasing of previously displayed digits. Shinderovsky discloses Alphabetic Chess Puzzles And Games. He teaches removal and rearrangement of letters previously displayed (see col. 16, lines 25-37). It would have been obvious to one of ordinary skill in the art at the time the invention was made to include the removal of digits as a means of refreshing/restarting game play.

Further, examiner takes official notice the clearing digits, game boards and the like are known in the art at the termination of game play (e.g., bingo).

Response to Arguments

Applicant's arguments filed 6/20/05 have been fully considered but they are not persuasive. Applicant responded to the office action of 5/20/05 by neglecting to address the issues therein. Applicant's game still has no ultimate transformation; the 112 issues are still unclarified or corrected. The cited reference to Bryson (426) is a clear example that grids that map columns and rows exist. Examiner would like to further point out that Football betting is known to utilize such grids and mappings. Examiner therefore maintains and makes this rejection final.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and are cited to show the state of art with respect to features of the claimed invention.
